1.1 Iqra Academy uses closed circuit television (CCTV) images for the prevention, identification and reduction of crime and to monitor the school buildings in order to provide a safe and secure environment for pupils, staff and visitors, and to prevent the loss or damage to school property.

1.2 CCTV surveillance at the School is intended for the purposes of:

- protecting the school buildings and school assets, both during and after school hours;
- promoting the health and safety of staff, pupils and visitors;
- reducing the incidence of crime and anti-social behaviour (including theft and vandalism);
- supporting the Police in a bid to deter and detect crime;
- assisting in identifying, apprehending and prosecuting offenders; and
- ensuring that the school rules are respected so that the school can be properly managed.

1.3 The system comprises of a number of fixed external cameras around the school site.

1.4 The CCTV system is owned and operated by the school and the deployment of which is determined by the school's Principal and Proprietor. The CCTV is a standalone system and operated by the school.

1.5 The CCTV is monitored centrally from the school office by the Principal, the Deputy Headteacher and the Office Manager.

1.6 The school's CCTV Scheme is registered with the Information Commissioner under the terms of the Data Protection Act. This policy outlines the school's use of CCTV and how it complies with the Act.

1.7 All authorised operators with access to recorded images are aware of the procedures that need to be followed when accessing the images. All employees are aware of the restrictions in relation to access to, and disclosure of, recorded images.

1.8 The school complies with Information Commissioner's Office (ICO) CCTV Code of Practice to ensure it is used responsibly and safeguards both trust and confidence in its continued use.

1.9 The use of the CCTV system will be conducted in a professional, ethical and legal manner and any diversion of the use of CCTV security technologies for other purposes is prohibited by this policy e.g. CCTV will not be used for monitoring employee performance.

1.10 CCTV monitoring of restricted access areas for security purposes will be conducted in a manner consistent with all existing policies adopted by the school, including Codes of Practice for dealing with complaints of Bullying & Harassment and Sexual Harassment and other relevant policies, including the provisions set down in equality and other educational and related legislations.

2.0 Justification for Use of CCTV

2.1 The use of CCTV for safety and security purposes has been deemed to be justified by the Principal and the Governing Board. The system is intended to capture images/video footage of intruders or of individuals damaging property or removing goods without authorisation or of anti-social behaviour.

2.2 CCTV systems will not be used to monitor normal teacher/student classroom activity in school.

3.0 Location of Cameras

3.1 Cameras will be sited so they only capture images relevant to the purposes for which they are installed and care will be taken to ensure that reasonable privacy expectations are not violated.

3.2 The School will ensure that the location of equipment is carefully considered to ensure that images captured comply with the Data Protection Act. The school will make every effort to position cameras so that their coverage is restricted to the school premises, including external areas of the school site.

3.3 CCTV will not be used in classrooms.

3.4 Use of CCTV to monitor areas where individuals would have a reasonable expectation of privacy would be difficult to justify. Iqra Academy has endeavoured to select locations for the installation of CCTV cameras which are least intrusive to protect the privacy of individuals.

3.5 Cameras placed so as to record external areas are positioned in such a way as to prevent or minimise recording of passers-by or of another person's private property

3.6 CCTV Video Monitoring and Recording of Public Areas may take place for the following purposes:

- Protection of school buildings and property: the building's perimeter, entrances and exits, office locations, receiving areas for goods/services
- Monitoring of Access Control Systems: monitor and record restricted access areas at entrances to buildings and other areas
